Model	Parent	Adds	Contrast	LOSO % improved, DoG	DN
m00		pRF on the bar			
m0	m00	Search items, weight fitted	Items	100	100
m1	m0	Target gain	T	90	97
m2	m0	Distractor gain, same at all locations	D	50	53
m3	m0	Sustained gain, same at all locations	S	90	90
m3b	m1	Distractor gain	D given T	pending	pending
m4	m3b	Sustained gain			
m5	m4	Sustained gain differs at HP	dS	77	63
m6	m4	Distractor gain differs at HP	dD	63	67
m7	m5	Both HP-specific terms			

LOSO: share of 30 subjects whose held-out prediction improves when the contrast is added with the effect size from the other subjects (median over ROIs). Provisional: current inputs.
